Summary

I am an enthusiastic and detail-oriented recent graduate in computer science, eager to pursue a career in full stack web development. I possess a solid programming foundation, good knowledge in database management, and proficiency in front-end technologies. My skills extend to designing and constructing responsive web applications using contemporary frameworks and tools. I have demonstrated my ability to collaborate effectively within teams, delivering top-notch projects within specified timelines. With a knack for problem-solving and a perpetual thirst for knowledge, I continuously stay updated on emerging trends and technologies in the field. I am now seeking an opportunity as a junior full stack web developer to apply my technical expertise and unleash my creativity in contributing to innovative web development projects.

Professional Experience

| <ul style="list-style-type: none">Gained a solid understanding of core concepts in computer science, including data structures, algorithms, operating systems, databases, and programming languages.GPA: 3.22 | |

Skills

Technical Skills

- HTML5, CSS3, JavaScript.
- Front-end frameworks: React, Flutter (Dart).
- Back-end languages: Node.js, Java, C#.
- Databases: MySQL, MongoDB, PostgreSQL.
- RESTful API development.
- Version control: Git.
- Responsive web design and mobile development.

Additional Skills

- Problem-solving and analytical thinking.
- Software development expertise.
- Collaborative teamwork.
- Effective communication.
- Project management and organization.
- Adaptability to new technologies.
- Attention to detail and clean code writing.
- UI/UX design proficiency

Projects

CareerClimbQuiz

HTML, CSS, Bootstrap, Javascript

Career Climb Quiz is a quiz website that will evaluate candidates' knowledge and skills in 3 main topics (HTML, CSS, Javascript).

MarketMate

React, Tailwind, CSS, Json Api

Market Mate is an online platform that offers a wide selection of fresh groceries and food items to customers, featuring various categories for easy navigation and exploration.

Dolt

React, Tailwind, Node js, Express, Firebase

Dolt website is an online platform designed to help users organize and manage their tasks and to-do lists efficiently. The website typically provides a user-friendly interface where users can create, update, and delete tasks. Users can categorize tasks, set due dates, prioritize them, and mark them as completed.

ResortFinder

React, Tailwind, Node Js, Express Js, Postgres

ResortFinder is a comprehensive platform that facilitates resort reservations for users seeking a relaxing getaway. It provides an extensive selection of resorts and accommodations to choose from, catering to various preferences and budgets. Users can easily search and browse through the available resorts, filtering the results based on location, amenities, price range, and other criteria.

Certificates

Certified International Professional Trainer (CIPT)

Globally recognized certification demonstrating expertise in cross-cultural training and instructional design.
